

ABOLISH Ohio Property Taxes

- **UNCONSTITUTIONAL:** In 1997, the Ohio Supreme Court ruled that Ohio schools' over-reliance on property tax was unconstitutional, but the legislature has refused to comply. The legislature needs to create an efficient, equitable, and fully compliant framework to fund essential services.
- **EXCESSIVE:** Ohio ranks the 8th state with the highest property tax, higher than New York and California (realtor.com).
- **FORCING PEOPLE OUT OF THEIR HOMES:** Case after case, many citizens can no longer afford their property taxes and either LOST their homes or are at risk.
- **HARMING BUSINESS & AGRICULTURE:** Business owners and farmers are also losing their properties due to out-of-control property tax increases.
- **HURTING RENTERS, TOO:** When property tax increases, so does rent.

Committee to Abolish Ohio Property Taxes

is leading this grassroots, non-partisan movement to restore true home ownership to Ohioans. In May 2025, Attorney General Yost accepted and certified the Initiative Petition for an Ohio constitutional amendment, "Abolishment of Taxes on Real Property."

"We're not going to go away. We're serious about this."
